Plan your room

Our team will work closely with you from initial concept to final visualisation resulting in well presented carefully thought out office solutions. We use the latest design technology to create 2D and 3D space plans.

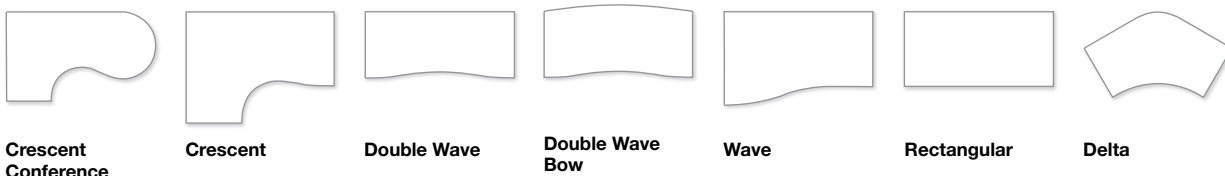

UK manufacturer

Atmosphere

Atmosphere

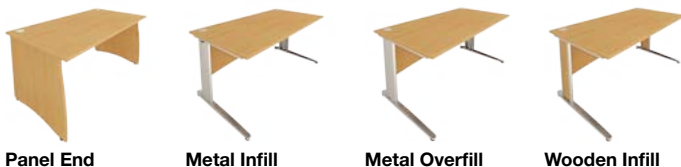

An executive range of office furniture designed with an emphasis on cable management. This range offers a variety of shape options with contemporary styling for an adaptable solution.

Desk Shapes

Desk Styling

Desks are available in a choice of Panel or Cantilever frame with a metal infill and curved wooden modesty panel as standard. At an additional cost a metal overfill or wooden infill can be added to the cantilever frame. A straight or metal modesty panel is also available.

Specification

25mm desk top made from Grade E1 melamine faced high density particle board and a 3mm edging.

Wood Finishes

Beech, Cherry, Birch*, White* and Walnut*.

* Finishes are available on a 3-4 week lead time.

Metal Work

Silver as standard, White available upon request.

Right:

Double Wave Bow, Beech:

Featured is the Double Wave Bow desk, with the stylish metal modesty and cantilever frame.

Crescent Conference Desk

Designed with an integrated meeting area, the Crescent Conference desk provides an informal solution in an executive office, where space is at a premium.

This standalone desk is available in a 2000mm or 2200mm length offering a generous workspace. The stylish Cherry wood finish will add warmth to any office.

Above:
Crescent, Birch:
Featured is the Crescent desk, with the
stylish metal modesty with panel end
and mobile pedestals.

Crescent Desk

The Crescent desk can be configured to achieve a variety of solutions offering a spacious work area. Whether in a large or small office the Crescent desk can be used individually or in a cluster. The curved panel end offers additional privacy whilst concealing storage items.

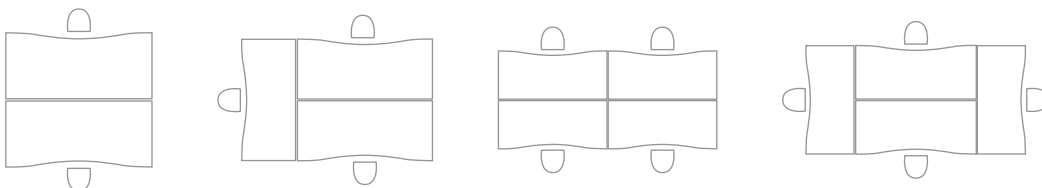

Above: Crescent, Birch:

Featured is a set of Crescent desks, with stylish metal modesty and cantilever frame with metal overfill. Mobile pedestals are featured for personal storage.

'Where *first impressions*
are important'

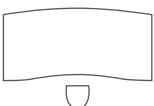

Double Wave Desk

The Double Wave desk design benefits from the additional flexibility as it allows multiple desks to be configured, maximising the workspace and offering a stylish solution to the office.

Double Wave Bow Desk

The Double Wave Bow desk suits a variety of environments, where first impressions are important, it really stands out from the crowd. From the elegant curve on the rear of the desk to the executive detailing in the metal modesty.

Reception

Wave, Birch:

Featuring a selection of Wave desks, with curved wooden modesty panels and cantilever frames with 3 drawer mobile pedestals, configured to suit a large office.

'Simplicity without
compromise'

Above:

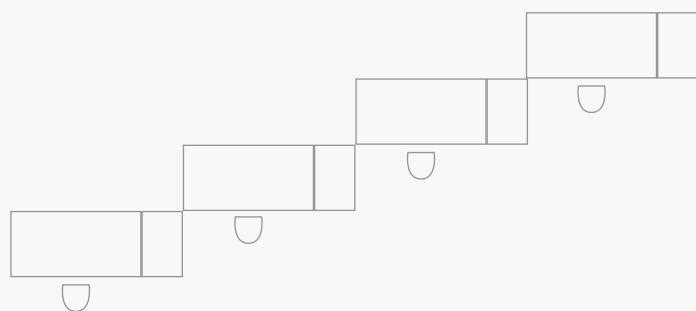

Rectangular, Beech:

Featured is a Rectangular desk, with curved wooden modesty and cantilever frame with a metal overfill and 4 drawer pedestals.

Rectangular Desk

A simple desk design can be enhanced using creative configurations and complementary storage. Available in 6 different lengths the Rectangular desk can be used in a row, cluster or individually and the integrated cable management within the frame easily conceals unsightly cables.

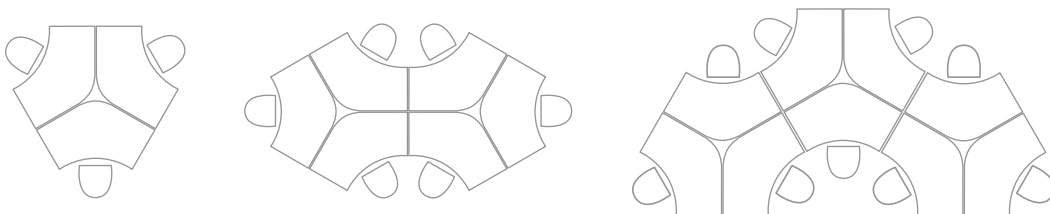

'Encouraging
collaborative working'

Delta Desk

A 120 degree desk design can encourage communication. Pods of desks can be configured to enhance a collaborative working environment. Privacy can be achieved with the addition of stylish desk screens. See *page 26*.

"We have a commitment to efficiency, quality, service and the environment... working towards a more sustainable and greener future"

Environmentally Friendly

We care about the environment and recognise our responsibility to consider all aspects of our manufacturing processes and the impact they have upon the environment.

We are committed to continually improving the ways in which we can minimise any effects upon the environment including the reduction of waste, this is managed through our ISO14001 Environmental Management System to measure and assess our efforts.

A chain of custody certification by the Forest Stewardship Council® (FSC®) ensures our raw wood materials are purchased from sustainable sources. The certification

represents the unbroken path which products take from the forest, including all stages of manufacturing, transportation and distribution. Providing evidence that certified products originate from well-managed forests. Regular company audits ensure strict compliance.

In addition, we endeavour to reduce carbon emissions via our own transportation and continue numerous recycling initiatives as part of our ongoing commitment to work towards a more sustainable and greener future.

To read more about our environmental policy visit www.leeandplumpton.co.uk/company/policies

17 tonnes

Around 17 tonnes of cardboard and paper waste is recycled every year.

13 tonnes

Around 13 tonnes of metal from our manufacturing process is recycled every year.

Certifications

We are certified by the most prestigious industry governing bodies. Upholding our commitment to quality, service and the environment.

665
tonnes

Approximately 665 tonnes of off cuts and sawdust are recycled into Bio-Fuel products locally and recycle schemes every year.

90%

Reusable plastics from our manufacturing processes are made into products used in the building industry. The remaining 10% of plastic is waste and is used for waste to energy.
