

Realistic replica plants that transform any space.

The brand you know. The products you trust.

Looks-Like-Real

Realistic replica plant displays with a guarantee.

Welcome to the future of replica plant technology

The Looks-Like-Real™ range represents the leading edge of replica plant technology.

Almost impossible to distinguish from real plants, the only way to be sure is to touch them.

Looks-Like-Real

Realistic replica plant displays with a guarantee

About our replica plants

Looks-Like-Real™ range

The Looks-Like-Real™ range can brighten up any interior. Suitable for use in the shade, or high heat areas where living plants are not appropriate, there's no reason why you can't add greenery to your space.

Unlike many plants on the market, our range is ready to display straight from the box in a wide selection of styles and types that will suit your space and your budget. What's more, our plants mean no construction or finishing is required and they are simple to keep clean and look after.

Why buy our replica plants?

Realistic

Our Production Team choose only the highest quality and realistic foliage and stems.

Continuous construction

Featuring fully bonded components from base to tip, our plants do away with the unreliable joints many competitor ranges feature.

Ready to go out of the box

Open the box, remove the packaging and your new plant is ready to display - no need to assemble components or even dress the plant.

2 YEAR guarantee

We are confident in the resilience of our plants. However, in the unlikely event of any replica plant display deteriorating within two years due to faulty workmanship, we will replace it for free.*

* Within two years, general wear and tear is not covered with the guarantee.

About our replica plants

Looks-Like-Real™ range

Looks-Like-Real

Realistic replica plant displays with a guarantee

Strong & resilient

Combining carefully selected components, continuous construction and a high degree of craftsmanship, our plants are resilient, strong and reliable - perfect for high traffic areas.

Durable, long-lasting planters

Our planters are chosen for their durability, resilience, strength and also their aesthetic qualities. We have a solution for any space.

Weighted bases for stability

Pick up one of our plants and you may be surprised at the feeling of weight and quality. The weighted bottoms make the plants stable and durable.

Bonded pebbles

Your plant will arrive with the dressing permanently bonded, meaning no accidental spills to clean up!

Quick and simple to clean

Simply brush the leaves with any small clean brush and use a handheld vacuum for the dressing of the base. Our plants are amongst the easiest available to care for.

Troughs

Floor standing & cabinet top plants

Our trough collection is perfect for large surface areas - whether this means floor space or a cabinet top. These plants can be used to dress and divide spaces without creating a barrier.
