

Directiv

Commercial desking

About Directiv

Directiv's sliding top system provides the perfect solution to all cable management requirements. The 25mm thick MFC top slides forward to provide easy access to three part wire management chambers in the horizontal cable beam. The rear cable beam meets directly with the vertical cable managed leg to ensure complete cable control. Cables can also be passed from one desk to the another through removal panels in the legs. Directiv is available with a wide range of storage options and a choice of 5 colour finishes all available from stock for immediate delivery and comes with an 8 year manufacturers guarantee.

“perfect solution to all cable management...”

Directiv Sliding desking

Details & Features

Sliding Top

25mm desk tops slide forward to reveal cable tray located at back of desk. Sliding top, management tray segregated into 3 channels BS5733.

Directiv BS 6396: 2008 Electrical systems in office furniture

With specific regard to the electrical system the following should be noted:

- * No more than six sockets allowed per supply
- * The electrical system shall be rated for a total normal load of 13A
- * No single item of equipment of a rated voltage higher than 250V or rated current higher than 5A shall be connected to the furniture.
- * For multiple socket outlets fuse protection must be used for the individual sockets.
- * Observe the stated fuse ratings on the appliance
- * Power supply cords must not exceed 2M in visible length on exit from the desk clamp
- * Ensure cable routing, system earthing and general mechanical configuration conforms to the stated requirements
- * The final installation must be subjected to an electrical test. (Separate information is available regarding this)
- * Cable must be clamped at point of entry to furniture and/or at both ends where cables connect separate moving parts of furniture
- * All extraneous metalwork should be earthed
- * Items of Office Furniture intended to be earthed shall be provided with an earthing terminal that shall be connected to the earth terminal of the Power Module
- * Provide the user with instructions concerning the safe installation and use of the furniture.

The AMP lists serve as a guide only and are not exhaustive.

2.00 Amp	Desk top Computer
0.60Amp	Lap Top Computer
1.50 Amp	Colour Monitor (not Flat Screen)
2.00 Amp	Fax Machine
0.10 Amp	Low Voltage Desk Lamp
0.05 Amp	Mobile Phone Charger
0.25 Amp	Desk Fan

Any item of equipment rated in excess of 5 Amp, MUST have a separate power supply, therefore items such as Vacuum Cleaners Kettles, Coffee Makers, and Fan Heaters should not be connected via these power modules.
